# What's involved?

Our Introduction to beekeeping course is aimed at helping you decide whether you would like to take up the craft of beekeeping but will also provide a more general appreciation of bees and beekeeping.

The course covers :

where bees can be kept.

the equipment required.

the cost and time involved.

what the beekeeper has to do throughout the year;

the next steps in becoming a beekeeper.

helping the bees in other ways.

Subject to the weather, there will also be an opportunity, to get close to some bees under the supervision of experienced beekeepers in a nearby apiary

A hive building workshop

Our Introduction to Beekeeping course makes an ideal gift for anyone with an interest in nature or bees, and Gift Certificates for the course are available on request.
